

Job title: Stores Manager
Basis: Permanent
Location: Scarborough
Salary: Negotiable

Unison Ltd is a world-class manufacturer of industrial tube bending machines supplying high-end products to a global market, with a wide variety of customers from small jobbing shops to the biggest international players in the Aerospace, Automotive, and Marine sectors.

Are you looking for a role that you can take charge of and make your own? Do you have experience of managing and organising parts and spares? Have you got strong organisational and man management skills?

Unison specialise in the manufacture, sales, and service of industrial machines which are supplied globally. The company is undergoing an extensive expansion plan and are in the process of building a new facility which will increase their production by 50%.

In this role, you will be fully responsible for the smooth operation of the stores. You will oversee the employees within the stores and support the factory. Ensuring all parts are supplied and that customer orders are being delivered on time and efficiently.

This role would suit a Stores Manager who has an understanding of the manufacturing industry.

The Role:

- Provide overall management to Stores personnel and liaise with associated teams
- Develop Stores management processes to achieve set targets and implement a modern stock control system.
- Ensure dispatch of finished goods for Sales requirements are carried out in a timely and efficient manner.

The Person:

- Experience with managing a warehouse/stores
- Computer literate
- Great organisational skills
- Strong Management Experience

To apply please email: enquiries@unisonltd.com with your CV and covering letter.
